petMAP *graphic II*

petMAP *graphic II* (*g II*) is a small, lightweight and portable blood pressure measurement device designed for veterinary use. It is capable of measuring blood pressure (systolic, diastolic and mean arterial pressures) and heart rate. The measured values are displayed and trended graphically and numerically on the device. Data trended on the petMAP *g II* can optionally be saved on an SD memory card via the device's integrated SD memory card slot.

A user interacts with petMAP *g II* using its touch screen, just like many smart phones. The user can set alarms for systolic blood pressure and can set a BP cycle time for automatic reminders to start another BP measurement.

7300 petMAP *graphic II*

Blood Pressure Range:	Systolic BP: 40 - 265 mmHg MAP: 30 - 200 mmHg Diastolic BP: 25 - 195 mmHg
Heart Rate Range:	40 - 240 bpm
Dimensions:	6.0"H x 3.2"W x 1.25"D
Weight:	1 lb (with batteries)
Battery :	Four AA Alkaline (installed)
